

care system by finding them permanent, stable homes. Currently our foster care system serves over 400,000 children, with over 105,000 waiting to be adopted. LGBT families can play an important role in decreasing the number of children in care. Unfortunately, LGBT individuals and couples face discrimination in 31 states when they attempt to adopt or foster. Congress invests over \$7 billion in our child welfare system annually, yet we are allowing potential adoptive parents and foster families to be excluded to the detriment of children.

We should show our support of those children who are without families by passing HR 1681, the Every Child Deserves a Family Act. I introduced this bill to protect those families looking to foster or adopt children from discrimination on the basis of their sexual orientation, gender identity, or marital status or on the basis of the sexual orientation or gender identity of the child involved.

It is the purpose of our foster care system to find children families who will love and cherish them. There should be no added burden for anyone based solely on their sexual orientation, marital status, or gender identity.

I would again like to acknowledge Alameda County for their commitment to children in search of families and to the families willing and able to adopt a child in need. I hope more counties will follow their inspiring lead.

RECOGNIZING WOODFILL ELEMENTARY SCHOOL

HON. GEOFF DAVIS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Friday, November 4, 2011

Mr. DAVIS of Kentucky. Mr. Speaker, I rise today to recognize Woodfill Elementary School, a 2011 National Blue Ribbon award winning educational institution in the Fourth Congressional District of Kentucky.

The Blue Ribbon Schools Program honors public and private institutions whose students achieve academic excellence or have made profound advancement in closing the gaps of achievement, especially among disadvantaged and minority students.

To be named a Blue Ribbon School is to join an elite group. Of over one hundred thirty thousand schools in the United States, just over 6,000 have received this honor since its creation by the Department of Labor in 1982.

Today, as we celebrate the accomplishment of this exceptional Kentucky institution, it is my hope that Woodfill Elementary School's leading example of hard work and growth encourage schools across the nation to strive for the same level of excellence.

Mr. Speaker, please join me in commending the students, teachers, and administration of Woodfill Elementary School for their devotion to the success of the youth of the Commonwealth of Kentucky and the United States of America.

HONORING THE SERVICE OF CORPORAL JOSE "DANIEL" GASCA

HON. FRANCISCO "QUICO" CANSECO

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, November 4, 2011

Mr. CANSECO. Mr. Speaker, I rise today to recognize Marine Corporal Jose "Daniel" Gasca of El Paso, TX. Corporal Gasca was driving an up-armored HUMVEE when it was hit by a control detonated IED in Fallujah, Iraq in September 2008. Corporal Gasca suffered spinal fractures, broken ribs, a ruptured spleen, and leg injuries so severe that both of his legs required amputation. Corporal Gasca, his wife, Angel, and their sons; 3 year old Mathew and newborn Eli, currently live in a non-handicapped home while Daniel continues his treatments and therapies at Walter Reed.

On November 10, 2011, Homes for Our Troops will provide Corporal Gasca with a brand new home at no cost. Corporal Gasca's new home will be specially adapted to accommodate his needs, allowing him to be more productive and independent. The work of Homes for Our Troops and the community of El Paso, Texas, is a great example of the appreciation we should show our brave men and women who have served our nation in uniform.

I extend my personal thanks and sincere appreciation to Corporal Gasca for his sacrifice made while protecting our freedom. We owe our veterans a huge amount of gratitude—particularly those who have been injured while serving their nation. As President Calvin Coolidge said, "The nation which forgets its defenders will be itself forgotten."

IN RECOGNITION OF THE CENTENNIAL OF NAVAL AVIATION

HON. JEFF MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, November 4, 2011

Mr. MILLER of Florida. Mr. Speaker, I rise to recognize the Centennial of Naval Aviation and its service to the United States of America.

Throughout the last century, the men and women of the United States Navy, Marine Corps and Coast Guard who have heeded freedom's call have become America's front line of defense. Generation after generation of children from the Emerald Coast have watched our country's finest aviators overhead and dreamt of following in their footsteps. I am proud to say that the First Congressional District of Florida holds a special place in its heart for the Blue Angels and all who fly in our nation's defense.

Naval Air Station Pensacola, NAS Pensacola, welcomed its first aviation unit on January 20, 1914, less than three years after the Navy purchased its first planes. On December 7, 1917, Pensacola was designated as the first permanent U.S. Naval Air Station. It was America's sole Naval Air Station until World War I. In the ensuing years, tens of thousands of America's finest Naval Aviators have trained

at NAS Pensacola, including Neil Armstrong and Ted Williams. Today, all U.S. Naval Aviators begin their training at the Cradle of Naval Aviation.

From the first Naval Aviator, Lieutenant Theodore Ellyson, to the current class of flight students at NAS Pensacola, thousands of Naval Aviators have protected America's interests around the world and in outer space. Just like their predecessors from previous generations, today's students at NAS Pensacola go through rigorous training to serve on shore and at sea, at home and abroad, to protect the United States and support freedom wherever and whenever they are called. From combat patrols over Iraq and Afghanistan to relief missions in Haiti and around the world, Naval Aviation is a touchstone of America's naval might.

Mr. Speaker, I am privileged to recognize Naval Aviation for its contributions during its first 100 years and to honor it as it takes flight in the next 100 years.

HONORING ROBERT ALAN DUGGAN

HON. THADDEUS G. McCOTTER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, November 4, 2011

Mr. McCOTTER. Mr. Speaker, today I rise to honor the extraordinary life of Robert Alan Duggan, and to mourn him upon his passing at the age of 46.

Born in Livonia, Michigan on February 23, 1965 to Patrick and Joan Duggan, Bob was a classmate and fellow graduate of the class of 1983 from Detroit Catholic Central High School. He went on to attend the Adrian College, earning a Bachelor's Degree in Business/Broadcasting. While attending Adrian College he became a member of this nation's oldest and largest professional business fraternity, Alpha Kappa Psi. Bob joined the Screen Actors Guild in 1997.

A true son of Livonia, Bob Duggan was born at St. Mary's Hospital, and there the incredibly benevolent heart that led him to donate more than 120 pints of blood to the Red Cross in his lifetime stopped beating. Bob was a long time member of St. Aidan Catholic Church, where he had served as an altar boy and faithfully attended every Sunday. He was a realtor who loved the Detroit area, and an avid sports fan.

Regrettably, on November 3, 2011, Robert Duggan passed from this earthly world to his eternal reward. He is survived by his beloved parents, Patrick and Joan, and his brothers Michael, Daniel, James, and Timothy. Bob was a devoted uncle, and will long be remembered by 13 nieces and nephews.

Mr. Speaker, Robert Duggan is remembered as a dedicated son, devoted brother, loving uncle, and a true friend. Bob was a man who deeply treasured his family, friends, community, and his country. Today, as we bid Robert Duggan farewell, I ask my colleagues to join me in mourning his passing and in honoring his devotion to our country and community.

CONGRATULATING THE AIDS CENTER OF NEW YORK CITY FOR 20 EXCELLENT YEARS OF SERVICE

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, November 4, 2011

Mr. RANGEL. Mr. Speaker, I rise today to congratulate the AIDS Service Center of New York City, for their 20 excellent years of serving Manhattan by helping New Yorkers suffering from HIV/AIDS and providing them the support to rebuild their lives.

What started out as a small organization in 1990, the AIDS Service Center stands today as a pillar in my community's ongoing fight against the deadly disease that disproportionately affects African-Americans and Hispanics in the District. Through the leadership of Director Sharen Duke and the Center's dedicated Board and staff, the AIDS Service Center has provided services to over 1,800 people each year, and engages with 18,000 people through their peer education and community outreach initiatives.

The work done by the AIDS Service Center of New York City is so crucial and needed all throughout our nation. In New York alone, over 100,000 people live with HIV/AIDS, and thousands more are unaware that they are living with this terrible virus. I am forever grateful for the significant impact the Center is making in the lives of people in Manhattan.

I hope all my Colleagues in the House today will join my community and me in once again congratulating the AIDS Service Center of New York City for their 20 years of passionate service. We must continue to advocate and support for our fellow brothers and sisters living with HIV/AIDS until this epidemic no longer threatens the way of their lives.

INTRODUCTION OF A BILL, THE AMERICAN MICROTURBINE MANUFACTURING AND CLEAN ENERGY DEPLOYMENT ACT OF 2011

HON. LINDA T. SÁNCHEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, November 4, 2011

Ms. LINDA T. SÁNCHEZ of California. Mr. Speaker, I rise today to introduce a bill, the American Microturbine Manufacturing and Clean Energy Deployment Act of 2011.

This bill builds on the great American tradition of innovation and manufacturing. It will help our country create new high-paying jobs, promote investment in the clean energy economy, and reduce air pollution and greenhouse gas emissions.

The bill would accomplish these goals by establishing a 30 percent investment tax credit for microturbines, thereby granting parity with other renewable and fuel cell technologies. Microturbines, which have been supported by research and development funding from the Department of Energy, are small, ultra low emission gas turbines that produce usable efficient thermal energy and clean electrical power. While used most often in commercial buildings, microturbines have a wide range of applications, including renewable power, hybrid electric buses, trucks, and cars.

Over 90 percent of the world's microturbines are manufactured right here in the United States by American workers for American companies. And of the U.S. manufacturers, one is located in Southern California and employs a number of my constituents. Another manufacturing facility is located in New England. American microturbine companies enjoy a robust export market, which means customers across the globe are increasing energy efficiency and reducing pollution and their carbon footprint. But sadly, the domestic market is weak. Why? Because our incentive structure has failed to encourage the adoption of this readily available clean energy solution. This must change, and my bill will help increase deployment in our own country.

Where microturbines are deployed in the United States, there are numerous success stories. In the spirit of bi-partisanship, let me highlight one in my home state. The Ronald Reagan Presidential Library, which many of us have visited, deploys sixteen 65-kilowatt microturbines that provide onsite electricity. In addition, the waste exhaust from the turbines heat the facility's water supply and is then run through an absorption chiller to provide air conditioning to the Air Force One Pavilion. This innovative approach not only enhanced the environment around the library by eliminating the need to construct additional power lines, but it also saves the facility over \$300,000 per year in utility bills.

We have the opportunity to help businesses and families across the nation save energy and preserve the environment. And, by enacting the American Microturbine Manufacturing and Clean Energy Deployment Act, we will create thousands of jobs. According to a recent survey of the microturbine industry, estimates are that the enactment of a 30 percent tax credit could immediately create over 2,000 new jobs. During the first year of the new tax credit, enough new microturbines could be deployed to reduce greenhouse gas emissions by an estimated 170,000 tons of CO₂. These numbers will only increase the years after the tax credit is enacted. While the potential of this energy technology is huge—eventually representing tens of thousands of jobs in the U.S. alone—deployment has been held back by the lack of incentive support.

Mr. Speaker, two of the most overarching public policy goals of the Congress and the country are to create jobs and promote energy efficiency and independence. I strongly believe that microturbine technology is a key component in our efforts to meet these challenges. This is an American-invented technology and an American-dominated industry. We should keep it that way. I urge our colleagues to join me in supporting this clean, innovative American industry.

IN HONOR OF VETERANS DAY

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, November 4, 2011

Mr. HASTINGS of Florida. Mr. Speaker, I rise today to honor America's veterans, who have courageously served our nation. These brave men and women deserve a debt of gratitude for their commitment to protecting the liberties that are the foundation of our country.

As we recognize their selfless dedication and accomplishments, we must be reminded of the challenges many veterans face when returning home from tours in Iraq and Afghanistan. Unfortunately, upon returning to civilian life, many suffer from severe physical and mental wounds. In fact, 20 percent of all suicides in the United States are veterans. Furthermore, 25 percent of those who find themselves homeless are veterans and many of them are also unemployed. These figures are extremely alarming and quite frankly, unacceptable.

Mr. Speaker, as we welcome home the thousands of American troops currently deployed overseas, we must ensure that they receive the benefits they rightly deserve. It is imperative that we provide the very best educational, medical, and employment benefits available to assist with their transition back home.

On this day, I encourage all Americans to honor our nation's veterans. My thoughts and prayers are with those brave men and women and their families. Let us remember those who have fought, those who have returned, and those who have not. We are forever indebted to their courage and dedication as well as their service to this great nation.

RECOGNIZING DR. JIMMY JONES UPON RECEIVING THE PHILIP O. LICHTBLAU, M.D. AWARD

HON. JEFF MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, November 4, 2011

Mr. MILLER of Florida. Mr. Speaker, I rise today to honor Dr. Jimmy Jones on receiving the Philip O. Lichtblau, M.D. Award. Dr. Jones has spent the last 45 years serving his patients, his community, and his country; and I am proud to recognize his lifetime of achievements.

After graduating from the University of Tennessee Medical School in 1956, Dr. Jones began his medical career with the U.S. Naval Hospital in Queens, New York. He continued his active duty service as a flight surgeon in the Navy through 1959. Dr. Jones remained in the Naval Reserve and retired in 1997 with the rank of Captain. After 1960, he worked in Boston, practicing general surgery, thoracic surgery, and ultimately pediatric surgery, which became his life's calling. In 1972, he moved to the Gulf Coast, serving as a pediatric surgeon at Sacred Heart Children's Hospital in Pensacola, Florida. For 35 years, he was the only pediatric surgeon in the Panhandle. Dr. Jones returned to active duty from 1990–1997 as a surgeon in both Pensacola and Okinawa, Japan. Following his naval retirement, he returned to Northwest Florida as Surgeon-in-chief of the Pensacola Nemours Children's Clinic. In 2005, Dr. Jones became the Assistant Medical Director at the clinic, where he remains today.

Beyond his extensive career accomplishments, Dr. Jones has given his life to serving the children of our community. He works extensively with the Sacred Heart Foundation, the Children's Miracle Network, and founded the local Caduceus Society to create a mechanism for physicians to contribute towards
